Endorsed at #9 on Green Party List**

On Monday, 12 May, the Green Party of Aotearoa New Zealand released its List Ranking for the 2008 General Election.

Dr. Kennedy Graham, the candidate for Ilam, is ranked at Number 9.

The List Ranking is the result of a rigorous process undertaken within the Party over many months, including a democratic vote by all Party members as one of the final steps.

On the Monday of the release, the seven non-MP candidates in the top twelve ranking assembled in Wellington and appeared before a press conference, being introduced by Co-Leader Jeanette Fitzsimons, MP.

The following day, Ken was interviewed on Radio Live (Auckland) at midday.
